Dear Sir or Madam,

Re: Immediate Report - Petition to Approve Class Action

On September 19, 2019 Bezeq received a petition to approve a claim as a class action filed against Bezeq and against another service provider company (the “Defendants”) in the Jerusalem District Court.

The petition concerns the entitlement of certain groups (the elderly, the disabled and other weak sectors) to discounts on payments for vital services that the Defendants provide them. In this connection it is argued that the Defendants are doing nothing for the rights of these people to be honored, create difficulties for them and do not credit them for over-payments.

The definition of the groups in whose name the class action is being made is anyone entitled to a reduced payment to one of the Defendants but has paid in full over the 7 years preceding submission of the petition without exercising their entitlement, and those who presently pay a reduced amount but have not received a retroactive refund of differences for the entire period of their entitlement.

According to the estimate of the claimant, the amount of the class action claim against Bezeq is app. NIS 90 million.

Bezeq is studying the petition and at this point is unable to assess its chances.

Yours sincerely,

“Bezeq” The Israel Telecommunication Corp Limited

The Tel-Aviv Stock Exchange Ltd

Dear Sir or Madam,

**Re: Immediate Supplementary Report - State’s Response to Bezeq’s Petition
 to Cancel the Structural Separation**

Further to Bezeq’s Immediate Report dated February 14, 2019 concerning Bezeq’s petition to the High Court to cancel the structural separation applied to Bezeq, to the description in section 1.7.2.1 of the Chapter on the Description of Bezeq’s Business in Bezeq’s 2018 Periodic Report and to the update of this section in Bezeq’s Periodic Report for the quarter ended June 30, 2019 concerning the structural separation, a Supplementary Immediate Report is hereby provided that on September 19, 2019 the State filed its response to the petition.

In the State’s response it is argued that the petition should be dismissed out of hand since the petition is premature, prior to completion of the examination of the issue of structural separation by the special professional team appointed for the purpose by the Director General of the Ministry of Communications.

It is also argued that the petition should be dismissed in its own right in the absence of any cause for judicial intervention in the matter, and since the behavior and decisions of the Ministry of Communications and of the Minister of Communications are very reasonable and are in the broad area of professional discretion granted the Ministry of Communications in matters of this sort; the discretion of the Minister of Communications is not bound by the policy document concerning expansion of competition in the field of land-based communications - the wholesale market (which includes consideration of the matter of cancellation of the structural separation), in which it was explicitly stipulated that there must be an examination of the development of the wholesale market and the possibility that this might harm competition or the public interest, and this will be done. It is also argued that Bezeq in any case has not complied with the terms and principles laid out in the policy document and the provisions of the regulations set for its implementation in all matters related to the advancement and development of reform of the wholesale market.

A date has not yet been set for a hearing on the petition.

Yours sincerely,

“Bezeq” The Israel Telecommunication Corp Limited
